Jeff/Michelle -

attached is the current draft of the General Permit for High Volume Hydraulic Fracturing for your review. This is still draft and subject to some changes, but I wanted to give you the current version at this time.

If you have some time (1/2 hour), we can discuss our approach.

Kenneth Kosinski, P.E.
Section Chief
Watershed Implementation Section
Division of Water
Office: (518) 402-8110
FAX: (518) 402-9029
